I think fashion designing is mysterious. Fashion designer imagines and produces, but you can find yourself by her/his art! Styling is also similar. your style can define you without any word. Your style is like as your fingerprint, unique and special. I choose to be a fashion designer and stylist to help people to find themselves. To hug and love themselves. I am a magician. I can creat a cloth and design a style and people can find selfsteem with my designs. Welcome to my world!

A woman with long dark hair is standing in the center of a circular spotlight on a dark stage. She is wearing a vibrant, multi-colored patterned jacket over a dark top and dark pants. The background is dark and smoky, with the spotlight illuminating her and the floor around her. The overall mood is dramatic and fashion-forward.

**Fashion is a lifestyle which you
are the leading lady/man. Be
yourself and inspire the others!**

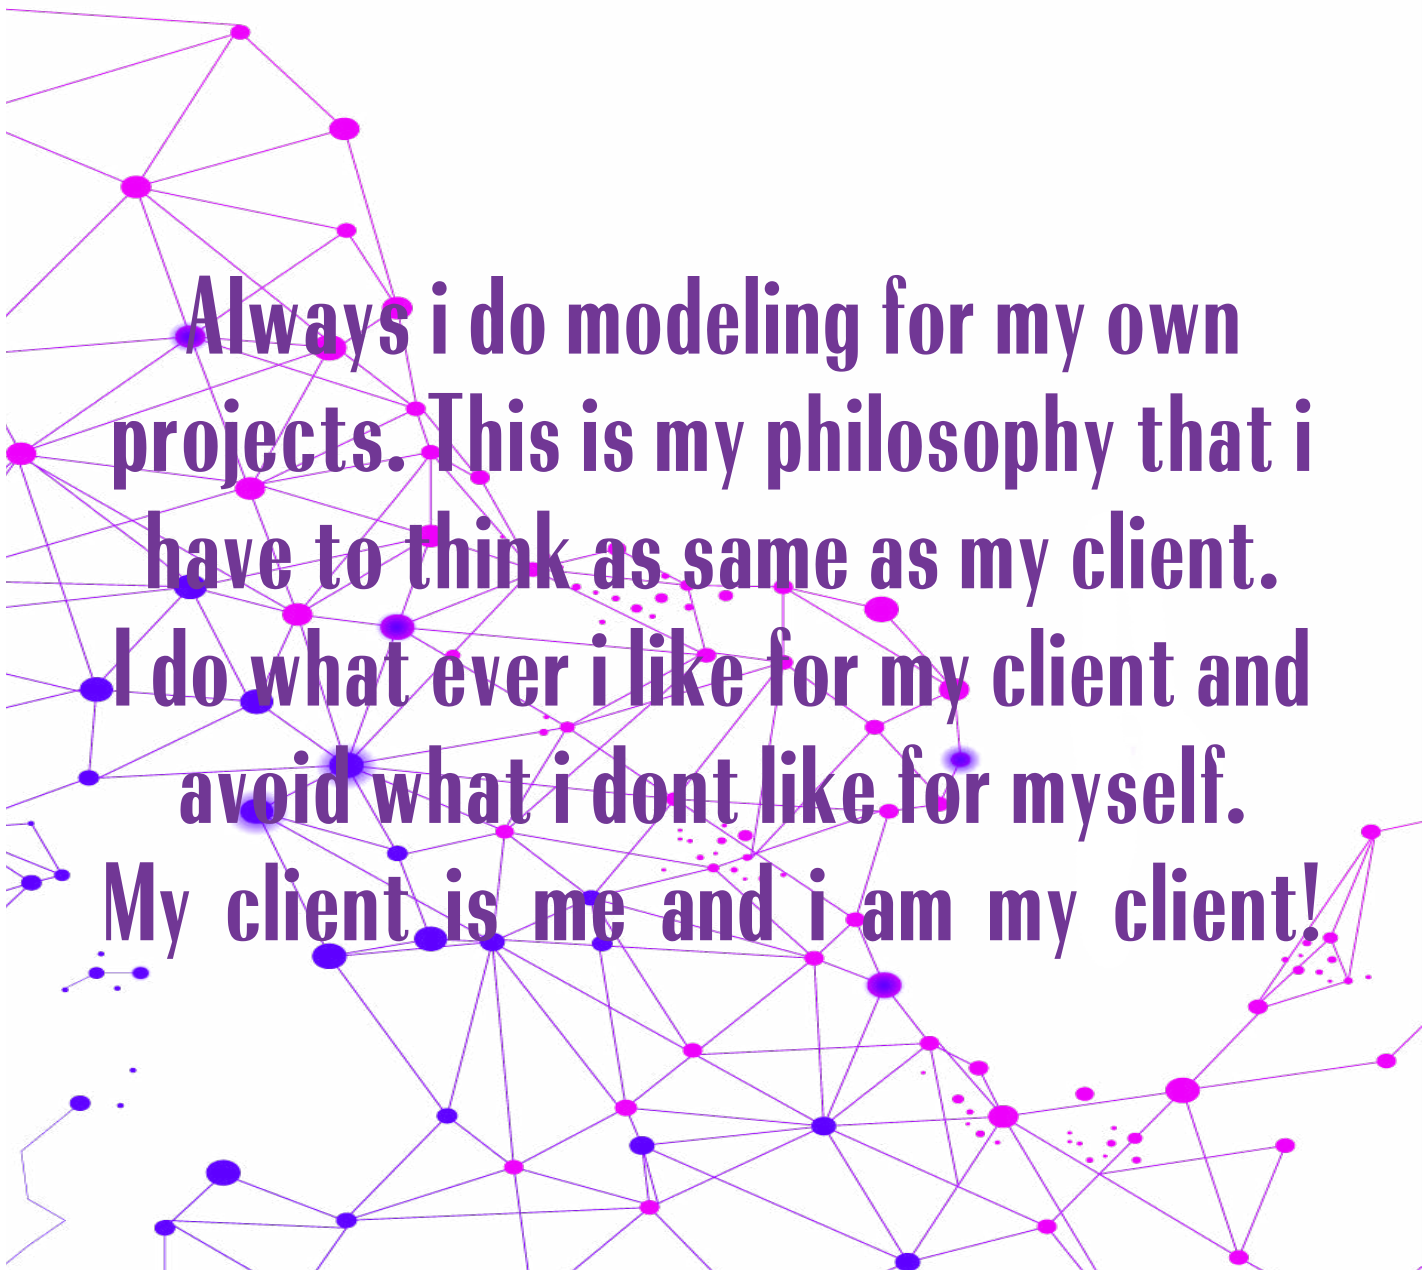

**Traditional designs are not old,
they are noble.**

**Bring out traditional motifs
from history to the present.**

Its the art of designing!

Always i do modeling for my own projects. This is my philosophy that i have to think as same as my client. I do what ever i like for my client and avoid what i dont like for myself. My client is me and i am my client!

A woman with long dark hair is posing in front of a white wall. She is wearing a light purple, textured knit sweater with a decorative brooch at the chest, white pants, and white lace-up boots. Her hands are raised to her eyes, covering them. The wall behind her features three pieces of black macramé art with fringe. The ground is a grey concrete surface. The entire image is framed by a purple border.

STYLING is a harmony between
inside and outside, this is why
its mysterious!
